I switched from Constant Contact to Predictive Response and could not be happier. [Predictive] has given me insight into my marketing campaigns that was previously unavailable. Without a doubt, [Predictive] has already paid for itself due to increased revenue and prospecting capabilities.

I have worked with Salesforce through my nonprofit for a few years and have worked with a few app providers to customize our platform. I have to say that the team at Predictive Response is amazing and their support services go above and beyond. I would recommend them to anyone based on their support!

We've tried many others and this one is by far the best. Includes the means to set up templates with an editor that is truly easy to use. The flexibility of the email system is fantastic. [Predictive] has streamlined our marketing and is one of the best investments we've ever made in this area. Try it, you'll love it!

When I explain how this product has helped us, and what it is capable of doing, I usually get replies like, "well, if it is as good as you say it is, I should be using it." And you should! This product, and the wonderful service the company provides is a huge benefit. I have used this tool for three separate companies so far. In each occasion, we have been able to not only gather rich data, quickly adapting our messaging, but we have also made SALES because of it. Simply put, this tool is permanently in my bag. None other has made such direct and quick impact to my bottom line. Thanks, Predictive Response, for your great app, your great service, and the great results we have had because of it!
